

# Social Business Opportunity

Invitation for a state level collaboration.

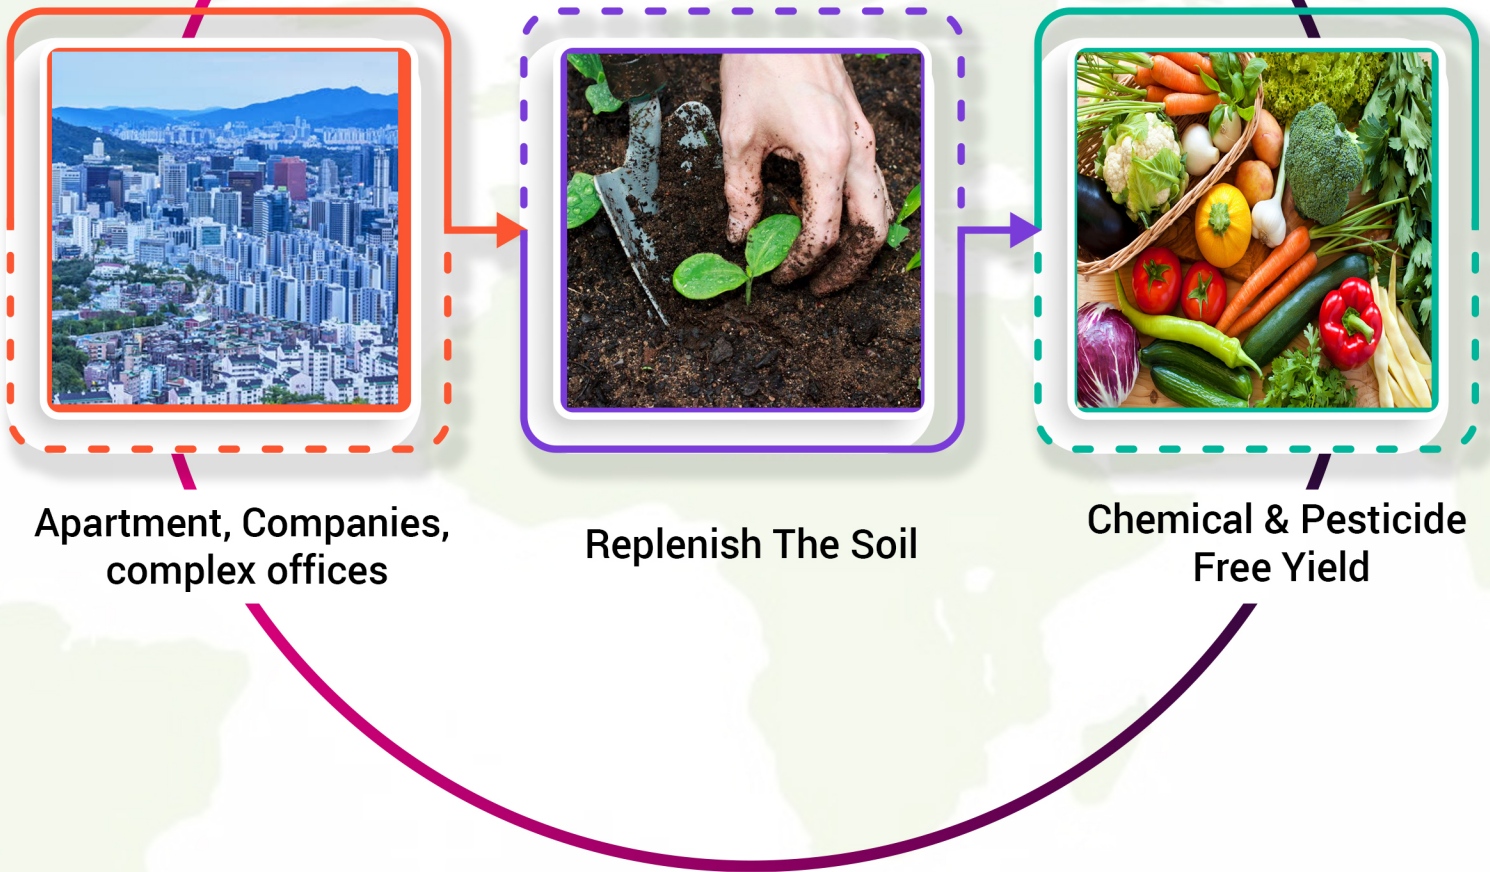

We're looking for techno-social entrepreneur mindset, willing to contribute to India's Social Development Story and passionate in creating social, economic and environmental impacts by providing sustainable solutions leveraging technology.

# Climate Smart Horticulture

This is our one of the many social development themes. We plan to develop circular economy models in all the possible locations. We play a role of catalyst, enabler and service provider to make this possible. We connect various stakeholders like NGOs and Corporate together by way of our CSR platform.

## CIRCULAR **ECONOMY**

## Climate Smart Horticulture

Reuse of Urban Solid and Liquid Waste, Food Security, Livelihood Improvement

We welcome you to contact us to know more how you can join us in this interesting socio-economic journey to make a difference.

# HDI Gateway

Our another important program in a social development landscape is HDI transformation. We are connecting Corporates and NGOs to create sustainable and scalable impact on HDI by leveraging technology and by bringing all relevant stakeholders on a common platform for complete lifecycle management.

## HUMAN DEVELOPMENT INDEX

## Our Products

We have envisioned to empower all the key stakeholders in the CSR ecosystem with cutting edge technology and sustainable solutions for creating tangible long term social, economic and environments impacts. Our products are tailored for NGOs and Corporate to manage their social development projects.

We welcome you to contact us to get a demo of our product.

## Business Opportunity

All over India, we have around 30+ lakh NGOs, 20000+ corporate qualified for CSR and numerous individuals and philanthropist donating for social causes. We are looking at specific thematic areas to make India, capable, innovative and sustainable society by leveraging technology and our immense experience.

We welcome you to contact us to understand the Business Plan, investments, ROI, market potential, required team and how exactly you can start this journey.
